Freie Software

Vier Freiheiten

- run the program as you wish, for any purpose
- study how the program works, and change it so it does your computing as you wish
- redistribute copies so you can help your neighbor
- distribute copies of your modified versions to others

Open Source Initiative

I love open source & want to help

I support open source software and the OSI

I support the free & open source movement

Open is the better way

Open Source is an idea that has changed the world for the better. The OSI helps keep that idea alive.

Wow. Been seeing a ton of tweets from @OpenSourceOrg the last few weeks. Glad to see it's getting some energy back.

Because I believe in open source

I deeply believe in the OSI mission

OSI represents hope

I am a firm believer in what the OSI, and other open source communities, are doing to keep software transparent.

The OSI is redefining business

I have enjoyed the benefits of open source for many years and, now an open source contributor, would like to help support the open source infrastructure talented people to collaborate on finding solutions

Open source shapes our future

The OSI promotes and protects

The open source movement needs this kind of support

The future depends on new ideas, alternatives and paradigms

open source

Open source software also spurs innovation and collaboration allowing different people to experiment with their own ideas about how the software could work

Open Source Initiative provides a powerful **community** from across the globe
