

Science and Practice in Software Engineering

- Science, Research
 - Publications, Licenses, Bibliographic Data
 - Reproducibility Artifacts
 - Rankings, Impact of Ranking
 - Clustering of Research Areas
 - Peer Reviews ← + Writky Reviews
 - Authorship Criteria
 - Conflict of Interest
 - Plagiats
 - Evaluate Research Results: Proofs, Experiments, Computations
 - Technical Writing, with LaTeX
 - Structure of Research Papers
 - Grant Proposals Hiring Process, How to become a professor
 - Team Work, Groups, Leadership
 - Principles
 - Ask me anything
 - What does a professor do all day?
 - How to supervise students?
- Why we ket book?
Should ket be on?
- When studied?
- What?
- Expectation regarding this course?
